**Talk on Yugoslav Wars**

# Few questions to point out

**1. Why? (language, heritage, gens?)**

**2. For what purposes? (democracy, freedom...?)**

**3. What is the outcome of that almost 30 years after? (developed countries...rich people?)**

**More communication, less conflict.**

**Rights equal responsibility, responsibility equal  
empathy and empathy equal equality.**

**Why we are fighting? We are the three tribes of  
one nation. But, the problem is – which one!?**

The fairy tales of Nationalism /Chauvinism, aka populism in Balkans, which led to the Yugoslav wars, are based on :

1. We are the best. All others and those who are different are idiots, nationalists (basically, they do not know anything about nationalism based on “*egalite, fraternite, liberte*”) and enemies. Especially those from the neighbor countries - republics, as part of Yugoslavia, prior to the war(s).

2. The way how we live is the best way of living in the world, while hundreds of thousands of people are leaving mentioned countries, even if they have good jobs and positions.

- Carrot of democracy or a stick of “demo(n)cracy”
- Socialism in ex-Yugoslavia (especially from 1975 until dissolution, 1991) was like capitalism today in Denmark, Finland and Sweden. Except of a one party system. Why it failed and opened a door for the forth-coming wars?

Why? Because, of the lack of a transparent democracy, democracy as a procedure with *as much power as much responsibility*, we had just an illusion of “self-governing” within the one-party “democracy” that has been transferred into an illusion: the “self-governing” of the nations within the countries of ex-Yugoslavia. So, after that, just a year and half prior to the war we get this in Bosnia and Herzegovina:

- I was a fighter against the communism in my young age. Still I am, but this time against the system in which area of former Yugoslavia is living since the dissolution and wars. Why? It is even worse.

- Nowadays so many believers and so many thieves.

*Contradictio in adiecto...* Out of 9.900.000 communists, out of 20 million people, suddenly, over night all started to believe in God (Allah, Jesus Christ)

- Gambling as a goal, of trust and...faith?!

- Become politician to get rich and religion, instead of being a connecting source between different groups, has become a main cause of separation, supporting their own ethnics parties.

- Organized anarchy or organized crime? Or both?
